

POLÍGONOS DEL VALLE DE UCO  
SAN PABLO CABERNET FRANC 2018

*San Pablo, Valle de Uco. Altitude, 1400 mals*

POLIGONOS  
*del Valle de Uco*

We make mountain wines. The Andes Range determines the identity of our wines, since it is decisive in the climate, water and soils.

We believe that the Uco Valley is, due to its proximity, the area that best expresses the mountain identity in Mendoza. Since we began to explore its diversity, I was captivated by the austere richness and uniqueness of each of its towns.

Polígonos is the expression of those towns of the Valley. These are wines that make us travel through

those places, through their landscapes, climates and soils. Its grapes come from different places that can be imagined on a map with diverse shapes and edges. A weird geometry as diverse as the sides of a Polygon. As diverse as the wines of each town.

POLÍGONOS DEL VALLE DE UCO  
SAN PABLO CABERNET FRANC 2018

**ORIGIN**

IG San Pablo, Valle de Uco.  
Altitude:1400 mals

**SOIL PROFILE**

Soils originated in the alluvial fan of the Las Tunas river, on its right bank.  
Normally sandy loam, of medium depth - between 80 and 120 cm - below  
from which a layer of medium gravel appears covered with calcium carbonate.

**HARVEST**

It was a warm and dry vintage. These conditions guaranteed the exceptional health of all varieties.  
The wines show great color and freshness, characteristics of this season, thanks to the harvest of  
each plot at its optimum moment.

**VINIFICATION**

Fermentation with native yeasts, in concrete vessels.  
Aging in unroasted 500-liter French oak barrels.

**GRAPE**

100% Cabernet Franc

**ALCOHOL**

13 % vol.

**TOTAL ACIDITY**

5,6 %

**RESIDUAL SUGAR**

1,8 g/l
