PARAJE WINES

Aluvional is our search for expressing the particular identity of different spots of the Uco Valley.

What is it that makes our places so different but similar at the same time? The Andes Mountains, an inexhaustible source of richness and diversity.

When we started exploring the Uco Valley, we understood that the common denominator of its vineyards is the origin of its soils. They are alluvial soils, originated over millions of years ago by alluviums that, through the overwhelming force of

the water flowing down the mountains, transported all the rocks, sediments, and minerals on which our vines grow today.

This is how we find different places at the foot of the mountain range, with an enormous diversity of landscapes, soils, climates, people, cultures, and histories.

Our challenge is to reveal that identity with transparency, and that is why we chose Malbec as a vehicle of expression.

ALUVIONAL LOS CHACAYES 2020

ORIGIN

IG Los Chacayes, Tunuyán, Valle de Uco, Mendoza.

1100 – 1300 m

PLACE

Los Chacayes is located in the southern zone of the set of alluvial fans of Arroyo Grande, between 1,100 and 1,250 meters above sea level. It is a place with a temperate climate and intense sunlight. In the soils we find deposits of sand and silt on a conglomerate of small stones, slightly eroded, with occasional deposits of calcium carbonate and gypsum.

HARVEST

The 2020 was a very particular vintage, characterized by limited yields and a high speed of maturity, which made it one of the fastest and most challenging on record. The grapes from all areas and varieties arrived at the winery with unbeatable health and the highest quality. The wines generally show excellent aromatic complexity and great juiciness, texture and structure in the mouth.

VINIFICATION

Movement of the grapes by gravity, fermentation in concrete vessels with native yeasts. Aged in concrete vessels.

COMPOSITION

GRAPE: 100% Malbec

ALCOHOL: 14,5% vol.

TOTAL ACIDITY: 5,4 g/l

PH: 3,6
