VINOS DE PUEBLO

**POLIGONOS**  
*Valle de Uco*

**VILLAGE WINES**

We make mountain wines. The Andes Mountain Range determines the identity of our wines, since it is decisive in the climate, water and soils.

We believe that the Uco Valley is, due to its proximity, the area that best expresses the mountain identity in Mendoza. Since we began to explore its diversity, I was captivated by the austere richness and uniqueness of each of its villages.

Polígonos is the expression of those villages of the Valley. These are wines that make us travel through those places, through their landscapes, climates and soils.

Its grapes come from different places that can be imagined on a map with diverse shapes and edges. A capricious geometry as diverse as the sides of a Polygon. As diverse as the wines of each village.

## **POLÍGONOS MALBEC GUALTALLARY 2023**

### **ORIGIN**

Gualtallary, Tupungato, Valle de Uco, Mendoza.

1360 m | 4462 ft.

### **THE PLACE**

At the foot of the Frontal Mountain Range, between 1,200 and 1,500 meters above sea level, Gualtallary has a temperate and arid climate: a true high-altitude desert. Its rugged terrain among the Jaboncillo Hills enclose very diverse soils with abundant calcareous material, formed by distinct layers of sand, caliche and stones.

### **HARVEST**

The 2023 vintage was warm and very dry, which gave us excellent health and quality in the grapes. It is a year that is also characterized by lower yields, due to the frost in the spring of 2022. Knowing the particularities of each place in the vineyards allowed us to define the harvest time for each area very precisely, always in search of freshness, the expression of place and avoiding overripeness.

The wines show great purity and transparency, with vibrant acidity and an enormous complexity of aromas.

### **VINIFICATION**

Fermented with native yeasts in concrete vessels. Aged in concrete.

### **COMPOSITION**

VARIETY: 100% Malbec

ALCOHOL: 14% vol.

TOTAL ACIDITY: 5,8 g/l

PH: 3,68
